NEWMAN PROPOSED AMENDMENT NO. 10

0000132955

TIME/DATE PREPARED: December 16, 2011

COMPANY: Tucson Electric Power Company

AGENDA ITEM NO. 16

DOCKET NO(S). E-01933A-11-0269

OPEN MEETING DATE: December 16, 2011

Page 4, line 9.5:

INSERT new sentence after last sentence, which reads, "as well as a reduction in educational and monitoring costs."

"Although Staff believes it is prudent to cut this program, we disagree. High schools have been adamant about wanting to install more solar, and it's critical that our youth, who are demanding solar, learn about this critical technology. Solar is a huge part of Arizona's future, and to cut this program is short-sighted. Because solar doesn't use fuel, and doesn't emit pollution such as acid rain, mercury, nitrogen oxides, or produce waste such as coal ash and spent nuclear fuel, solar is a prudent long-term investment for Arizona. Thus, we believe that restoring funding for this critical program makes sense, and we set that funding level the same as in 2011, at \$650,000."

Page 34, line 20:

DELETE the rest of the sentence following the words "School Vocational Program," and **INSERT** "and we restore funding to the 2011 level of \$650,000."

Make All Conforming Changes.
